I'm thinking about setting up a record label . . .and I need someone to act as managment and A&R for my hip hop label. For now, there is no pay . . .I'm just finding new talent and working on getting good promotion and advertising . . .but when I get the company DBA and sign my first three artists . . .I'll pay between 25,000 to \$30,000 a year (with a 3% stake in profits per quarter . . .) We can negotiate a higher salary . . .but for now . . .I just need someone to comprehend the ins and outs of running this future label . . .If interested or if you want more information . .please contact me . .
