Planning a .5/1 day documentary shoot. We'll be filming our artistry and collaboration out of a hardware/hacker shop - doing some comic book stuff and some computer type mashup projects for kickster.

Will need lighting, lavaliers for some interviews, etc. I am an semi-experienced DP and am looking for a camera man.

Please send a half day/full day rate sheet, your reel and equipment list. Red Camera a bonus. Reasonable Post skills possibly a bonus.

Project will be in Chicago. Finished product will be a 2-3 minute "kickstarter" style product development documentary.
