2004 Suzuki Intruder 1400. 5 speed, shaft drive. 15,046 miles. Metzeler tires front and rear. Mustang Seat. Willie & Max Saddle bags, fork bag, and bar bag. K & N Air Filters. New Battery. Tires are good, brakes good. 45 mpg whether doing 45mph or 80mph. Lots of power, will haul 2 people and full saddlebags easy. Excellent bike, I am just not riding much anymore. I think I put 150 miles on it last year. Oil has been changed regular in both the engine and rear diff. There has been nothing to fix on it, ever. Push the button and go. This is the last year of the Intruder name badge. Went to S83 after. Kind of hate to see it go but don't/can't ride much anymore, someone else should have some.
