

Colony of bristlenose plecos and cory cats (United States)

Location **Idaho**
<https://www.genclassifieds.com/x-401798-z>

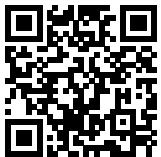

I have got a beautiful colony of bristlenose plecos that are proven breeders. They are brown, calico, and one albino female so you get both brown and calico offspring. 12 fish in this colony. The bristlenose don't get over 4" and are super peaceful. They love a planted tank with lots of bog wood and hiding places. I also have a proven breeding colony of 7 pepper corys and 2 emerald green corys also go with this deal. Text or call

ALL the above fish for .
