I am seeking a female model to work with. I would like for it to be someone I could work with often and on many different types of shoots. I want someone that can do fashion, editorial, boudoir, implied art nudes. Also looking for someone that isn't a conventional model. Open to all sizes and races. The at first it would be TFP and I always provide quality edits, as I feel its important for both of us to gain something from it. After that if we work well together we can work out a rate for future shoots. If you are interested please reply with a photo and what you prefer to shoot and we will go from.
