\*Before Applying, please take a look at our website before applying!\*

Hello! We need models who are comfortable having their feet physically worshiped and admired by foot fetish clients. There is no sexual physicality allowed nor nudity, but that wouldn't be a problem since most of the clients are submissive and senile. The models that we are looking for are of any age, any ethnicity, have reliable transportation, preferably have an open or flexible schedule, body types can range from thin to curvy but must be physically attractive! Models can range from models to soccer moms. If you have experience in this industry than that is a plus. Must be independent and reliable! Our company is an outcall/incall service so please know ahead of time what that means. If you have further questions, you are more than welcome to apply through our site. We will not answer any questions through here.

PLEASE TAKE A LOOK AT OUR WEBSITE TO UNDERSTAND THE NATURE OF IT!

Pay is \$80 an hour plus tips from the perspective client. Foot models typically work from 1-10 hours a week, so this is highly considered a part- time gig. Please check out our website which describes how you are able to apply. There are many foot fetishists that simply don't know where to hire reliable models, so this is the perfect site for them, and since it's a starter company, all first models will have the advantage of getting booked more often.
