I run an online TV station www.wcn-tv.com featuring news and entertainment shows in English, Japanese and Chinese. I will be returning from Tokyo soon and was wondering if anyone wanted to participate either in front of or behind the camera. I want to create new shows and start an America channel. I'm American and spent half my life in the PNW. If interested, please drop me a line and tell me about yourself and what you'd like to do.
