Customer review 3/10/2014:

"This place is the greatest from the spectacular views of the ski areas to the great convenience of outstanding restaurants within short walking distance. The Hot Tub is also great and the price you pay is also very good. I have stayed here in park city for over 20 years and this is the best place. You could book a place on the hill in deer valley and pay 3X the price of this place and the accommodations are not as good."

Customer review 12/28/1013:

"Our family of 6 enjoyed this condo both room A and B. There was not one thing we were without. In thinking of the best perks, I would say the resort pool and hot tub. Excellent!!! We will continue to save \$\$ so the 6 of us can return again some Christmas week. I asked our sons (4) what they liked best about the condo and they said "everything", so I guess that sums it."
