I'm looking to have a book written and self published that I can market to high schools colleges & anyone who enjoys a good book.

The book is about 2 African-American children growing up on a farm in Vermont in the 80's dealing with culture shock, bullying, racism, arson...ECT. The positive spin is how the family handles everything & learned how to forgive and rises above.

The book 10 chapters or less 200 pages or less.

After the book is finished, my goal is to speak to students and staff about the theme of the book which is to forgive and rise above.  
Please contact through email.
