Tom's Turf Lawn Care
 Lawn Aeration, Thatching, Slit Seeding and Rototilling
 Get your lawn back in shape after that winter season
 What does lawn aeration do?
 Reduces the amount of weeds
 Prevents soil compaction
 Increases nutrients reaching the roots
 Increases growth
 Improves oxygen circulation at the roots
 Helps the roots absorb fertilizer
 Helps increase activity of friendly organisms such as earthworms

Get all that Thatch removed from your lawn.

Are you planting a garden this year?
 Whether you're planting a new garden or utilizing an existing garden, rototilling will break through sod and compacted soil to turn it into a fine texture, ready for planting.

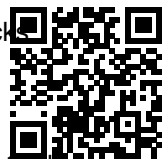

Additional services
 Grass Cutting
 Trenching

Side/Walk Edging
 Pressure Washing Deck
 Clean Gutters
 Brush Removal
 Log Splitting
