

Business Partner (Stafford)

Location **Texas**
<https://www.genclassifieds.com/x-403702-z>

We are a small tech company with several mobile and web platform applications in development. We need a business partner that knows product development/ deployment. We offer dynamic profit split (meaning you get a percentage of profits based on the work you actually perform). Please have some type of tech, security, web development background. This is a sweat equity partnership with no financial investment. If you would like to financially invest that is ok as well however we need someone who can actually put in some actual work. When responding please tell me your background, send a resume, and why you think you would be a good fit for this.
