Will need to have a businesses and a genuine need for money. Llc preferred, also I really like it if the business is operational already and not just a newbie attempting to break loose.

I prefer car dealership, or new upcoming used car dealers who need cash to buy and sell cars, I charge a percentage (need to have dealer license). Lending credit starts at (upto - \$5000) and can be higher after probationary period. Any and all ideas are welcome.

Pitch me your idea and see if we can make it work. I have a 501 number but I wouldn't want to keep receiving call unless ur idea is something that is a genuine investment for me. Reply with capital needed for and required
