

Freelance Drafting LLC (New Jersey)

Location

New Jersey

<https://www.genclassifieds.com/x-435382-z>

My service provides computerized drafting, both 2D (using AutoCAD) and 3D (using Sketchup 8 Pro), for architects, engineers, manufacturers, woodworkers, contractors, homeowners, developers and inventors. I will also convert your paper files into AutoCAD and PDF format and have experience preparing maps and plans for court documents plus a newly acquired certificate in Photoshop CS6. I can create and realistically render 3D models using Sketchup Pro software to improve your presentations and help your prospective client visualize their projects.

Call Dave at or email me at .

Freelance Drafting Service, LLC since 2006
