ParkMate® is an attractive, flexible, high quality alternative for surface mount and post applications, offering a wide array of accessories including: lighting, photoelectric, TV/telephone connection, water capability, and electronic metering. The ParkMate® head is injection molded from VALOX® engineered thermoplastic resin. The post, if needed, is available in galvanized or stainless steel, and padmount or direct burial. VALOX® resin is a lightweight, impact and corrosion resistant material, designed to provide long, maintenance-free service. Standard color, tan.
