Job: Ghost write a 30k romance novel and have it back to me in 36-48 hours or as soon as possible.

Pays \$150

A very detailed story line/plot will be given to the writer, just fill in the blanks around the storyline. 30k words in MS Word is about 50-53 pages. If you have excellent English skills and are a fast typist, this is easy money for you.

1. No erotica, this is just simple romance
2. Write it in MSWord
3. \*\*Please submit a writing sample with your proposal for me to read

\*Please do NOT submit a proposal for more than \$150, it will not be considered.

I will supply the detailed story line/plot, and I will give you formatting instructions on how it should be written. The foundation of the project is all done for you right at the beginning, you just need to write the story around it.

There is an excellent chance that this will turn into a long term position with several repeat stories for a good writer who wants to make good money regularly.

Best of!
