This plush brown and white toy horse has a steel frame and it's legs are sturdy. It is about 27" tall (to the top of head by the ears), 25" (from nose to tail), and 19" (where a doll could sit - pretend saddle). It is sturdy and if the new owner wanted their child to sit on it that would depend on the size of the child and the child's ability to understand that it is just a toy to sit on and pretend to ride. Note: the yard stick in the picture doesn't show the numbers clearly but it does give you an idea of the size of the toy horse as well as my.
