Lexicon MX200 Dual Reverb Effects Processor -- LIKE NEW! In box with power cord (in original box), rack mounting screws (still in factory bag), original booklet. This unit was purchased in May of 2014 - It's less than a year old. used in a home (never rack mounted) for 2 months maybe every other day for about an hour. selling because not needed.

Compare at Guitar Center, Sweetwater, etc. for \$209.99

Active Reverb/Effects Matrix that constantly displays which two of the 32 available effects are active, and all functions available within a single button-push turn of a knob. Dual independent processor control areas with dedicated Effects Select, Tempo, Bypass and three parameter control knobs provide instant access with precise and meaningful control over the most critical parameters for the selected effect. Parameter change LEDs illuminate to indicate any change from the 99 Factory or 99 User Programs. Choose from five digitally-recorded audio samples to Audition the selected effects.

Two legendary Lexicon® reverbs and effects at once in one of four routing options including: Dual Mono, Cascade, Dual Stereo (Parallel), or Mono Split. Featuring 99 Factory programs, and 99 User programs that allow you to create your own effects. Front panel controls include Input Level, Mix 1 and Mix 2 Wet/Dry controls, Routing button, independent Tempo, Bypass and 3 control knobs for each Processor, Program Select knob, Audition button (to preview the selected effect) and Store button.

Lexicon provides a USB interface with intuitive cross-platform VST® and Audio Unit plug-in windows. The MX200 is a "Hostless Plug-in" -- a full-featured and functional within VST and Audio Units compatible software is a plug-in for 32-bit and 64-bit operating systems. The unique USB interface allows users to easily connect the MX200 to their computer system. The interface within the software interface appears in the software application as a plug-in for automation and recall features.
