While working for other moving companies for over 10 years, the owner, became more and more shocked and dismayed at the lack of concern shown towards customers, their belongings, homes, questions, and concerns. Time and time again, he witnessed property damage, carelessness, and total disrespect, all the while paying a premium price for a moving service - he was outraged.

Thus began J.M. Movers LLC, your preferred relocation experts. Our vision is to provide an exceptional

moving service. With a "WOW" attitude of customer service! J.M. Movers LLC is quality, from start to finish. We are dependable, professional, and honest movers with the best of our home, work, and reputation. J.M. Movers LLC offers a free estimate, friendly, and professional service to answer all of your questions and may help you with our company's other services. We are your family's response to your moving needs.

JM Movers were exactly what I needed. I was moving from a one bedroom apartment across Cleveland to the snowiest Saturday of the year.

The two men from JM (Brian and Vince) showed up at my place on time, moved me from the east side to Cleveland Heights in a snowstorm, and moved me into my new place up multiple stairways to the second

floor with friendly smiles, all in under 3 hours on a Saturday morning. Friendly, efficient and professional. Highly recommended.

If I needed to move again, I would definitely call JM Movers. They made my move easy and quick.

I bought this service for a move for my mom who is a disabled senior. Within an hour of purchase the company contacted me to set the date of service and go over the details.

Great customer service! I felt the move would go very well based on the conversation with Craig the contact person. I was asked to e-mail an inventory list which I did and then I received an e-mail the day before the move as a reminder. On the day of the move the movers arrived on time and were very professional and very easy to work with.

Craig also called to make sure the movers had arrived and everything was going smooth. My mom had to downsize for this move and was still trying to decide if she should take an old desk and the movers were so nice about letting her decide even though they were clearly busy with the job and getting the move completed in the allotted time. They really tried to keep on schedule, which they did, even though it was by far the coldest day we've had so far this fall, it was snowing, and they had completed another move before ours! Great guys, they handled all of her belongings with care and showed very good moving skills throughout the day with the challenges of a "slightly larger than the doorway sofa".

Great company, great movers! I will definitely use them whenever I have a move and I will recommend them to anyone I know!
