Screen top Exo Terra, Screen needs to be re-set (easy to do, as I've done it several times due to the cat sitting on the top). There is a slow leak that I haven't bothered to look for because if you keep the water level low enough, it doesn't leak. Will give you aquarium silicone to fix it. Clips on the screen are broken off, would need a new screen if you want to keep something capable of lifting the screen off. Can throw in terrarium mesh (\$7 new), LECA/hydroballs for drainage/substrate (\$10+ new), repto filter (pump/housing only, you'll need new filter cartridges) (\$25 new), clip on lamp (\$15 new), 20 lbs? medium size smooth river rock substrate, some grapevine hardscape and some artificial vines. Perfectly new this is \$99. Make me an offer I can't.
