Hired a guy to swap trannys in my 2001 Ford Winstar. He put the new one in, but left the job incomplete.

Looks like 1 control arms need bolted up still
And I need someone to make sure all the lines are hooked up. I don't have tools or time anymore or I'd finish this easy job.

Will pay cash today, straight forward job, no more than an hour to button her up. Call text with estimates. Need someone asap
