Do you need precise, focused editorial help with your book, thesis, or dissertation? Do you need new website content, or want to revise existing content? Let's talk! I have been a professional editor, writer, and educator for 28 years, and I can help you improve and polish your work. My services include consultation about the consistency and effectiveness of print and online materials; copyediting to ensure accurate grammar and improve style; and proofreading for typos and spelling errors. Let me help you get it right. I can do a "once-over" or in-depth editing--whatever you need. Very reasonable rates, with a sliding scale for graduate students and first-time.
