

Wide Format Field Service Technician (Mountlake Terrace)

Location **Washington**
<https://www.genclassifieds.com/x-436089-z>

I am a wide format service manager looking to find someone on a contract basis, to fill in for me from time to time repairing HP DesignJet's, Canon imagePROGRAF's, and Mutoh Valuejets. You would be required to be 'on call' when I am out of the office (vacation/sick etc). We will be adding the Epson SureColor solvent line to our dealership soon as well.

Desired skills:
Technical and mechanical background
Light networking
Prompt and courteous customer service

If you have AWESOME sales skills and background, this could lead to part time work in our office as well, with monthly base + commission.

You will be representing our company when out on a service call. A typical service call is about 2 hours, and we would pay you \$75/hour + \$0.56 per mile for travel (standard IRS mileage compensation).

Feel free to visit our website at www.phixx.net to learn more about us. This website is an interim to our full website that will be launched in a few weeks.

Thank you for your interest and I look forward to talking with you!
