

Suzuki Katana 600 (Estes Park)

Location **Wyoming**
<https://www.genclassifieds.com/x-436184-z>

I have 2001 Katana 600. This bike needs a few things to be a good running bike. It needs the tank cleaned. The Kreamer that was in it started to flake off. It also needs handle bar and brake lever. All together the parts shouldnt cost more than \$100. The bike has no body work on it, so it looks like a street fighter, im guessing cause its been laid over. I dont know how many miles are on it.(there are no gauges, the guy i bought it from used his phone for speedo)

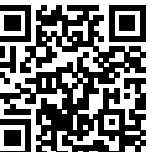

I have only rode this bike once and that was the day i bought it. It ran great had plenty of power. It stopped running due to the petcock getting clogged up. I did replace the petcock.

I bought this bike with the intensions of turning it into a race bike or into a stunt bike. But I just had knee surgery and cant ride for the rest of the year. I wanna sell so i can get something I can use this summer.

I dont have pics of the bike. Its kinda hard for me to roll the bike out of garage. If you are really interested in the bike. I can see what i can do to lift my garage door to get in there. or you are more than welcome to come up to estes and look at it

Looking to sell within the week so shoot me an offer worst I can do is say no

Cash is King!! but well entertain all trade offers. Things Im looking for. 4wheelers, buggy, go kart, If I think i can ride it or drive it and have fun then itll be worth looking
