2001 Ford Escape  
 Automatic  
 Sunroof  
 4 wheel drive  
 215k miles

Priced below KBB because it needs the following work to be done:  
 1) It has a small radiator leak at the top.  
 2) It needs a new door lock actuator for the hatch.  
 3) Possibly a new bearing in the left front wheel. It's making a squeal.
