I have six labradoodle puppies born last night-3 girls, 3 boys. I took the mom to get spayed but she was already pregnant and I didn't have the heart to abort them. When my husband and I got married, he had the lab and I had the poodle so we own both mother and father. Both parents are registered. From my research, they typically sell around \$1,500-\$2,000 per pup so we're only asking \$800. Please contact me with any.
