Do you have a demo made? Do you have your music on social media, sound cloud, or reverb nation without a video? Lets face it, video will help to promote your music and build a brand. Video will help sell your music, increase your following, and get you attention. Don't wait for them to come to you. Build your following, your brand and make a music video. This is where I can help you. I am willing to work with you on your video. All budgets are negotiable. An acoustic video vs a full production is better than not having a video at all. . I use DSLR cameras. All live or acoustic sound is recorded separate from cameras giving you studio quality sound. If you have your demo or EP made already, it will be added to video. If you are interested or just want to talk about it, contact me. Until ten. Lights, Camera,!!!
