

Fiber Optic Splicing and Installation (Arizona)

Location **Arizona**
<https://www.genclassifieds.com/x-437107-z>

Online Southwest

We are a North Phoenix Arizona based company that serves the entire Arizona area and beyond. We specialize in Fiber Optic Splicing and Installation. We are one of few companies in the area that have Fusions Splicers ONSITE. This will greatly reduce your overall cost, as most companies, trying to splice fiber, will rent this equipment and pass that \$2000 on to you the customer. We were fiber before fiber was cool. We do all facets of Fiber, Mechanical Splicing and Fusion Splicing, and hope to work with you soon.

Licensed, bonded and insured.
We have many national customers and also many local companies we do business with.

Here at Online Southwest, we hope to hear from you soon for your next project!
