

Mechanic work. Temporary (Fayetteville West fork area)

Location **Arkansas**
<https://www.genclassifieds.com/x-437625-z>

My friends and I are our inventors and we are currently buying vehicles needing repair, repairing them and selling them for a profit to raise money for our projects. (see my Ad, "blown head gasket", under the heading of "autos for sale" by owner).

The job will primarily be mechanic work, however once in a while there will be detail work to do as well, so you will need to be a little flexible on this.

We rarely have to change an engine, however, at the moment we have a 4.3 engine in an S-10 chevy blazer that needs replaced. You may do this at your place, or help us to do it in West Fork.

Preferably you would have your own tools, but if you don't, you can use ours.

You should have enough experience in this field to work by yourself without much guidance, however we are generally nearby if you get hung up on something. Part of the time we will be working with you on the same project.

I'm 75, my friend is 50 something, so if you are older, that is OK ...as long as you can still cut the mustard.

This is a fun loving, happy, cheerful, health conscious environment. We prefer to keep it that way. (If you smoke, drink, use drugs, or are gay, you probably would not fit in to well).

If you are into efficient energy devices, high mileage gas gadgets, alternative health stuff, etc, etc. You would find this especially to your liking.
