I am a part time photographer looking to expand my portfolio and business. To do that I am willing to offer some great deals to a few aspiring models. If you are looking for any of the photography services below please contact me so we can discuss the details.

I would like to gain more experience with model shoots. I also have a new in-home studio and need a few models to help me work on lighting, poses, etc. You can be 100% inexperienced as long as you are willing to put in a couple of hours in exchange for some pics you can use for yourself. I cannot pay you for your time but I will give you copies of the edited photos to use for your portfolio. I will retain the rights to use them for my business and advertising purposes also.

I need experience in this area and need a lot of pictures. I am offering a free photo shoot in exchange for your time helping me work on lighting, poses, etc. You must be outgoing and take instruction well. There is absolutely no cost to you on this unless you just want to order something. You will receive digital copies of the finished pictures for your use in exchange for helping me. If you are outgoing, fun, and need some pics get in touch with me. I require you to be at least 18 years old. Let me know a little about you, any experience you have (not required), what type of shoots you might want to do, and what your schedule is like. Also, please attach a few pics of yourself. They can be selfies If you want. I am just wanting to make sure you have the look I am wanting for my portfolio. We can discuss in more detail.
