Flat bed trailer for hauling hay (Rogers)

Hi, I have 15 or so bails of hay I bought but now my truck is broken down and I can't get them to my house. The guy keeping them for me needs me to move them soon as he is putting up new hay. If you have a way to haul them... and they are round bails so you must have a way to get them on the trailer too... I need you!

Message me to.
