

## MTX thunder 2150x Car amplifier (75, USD)

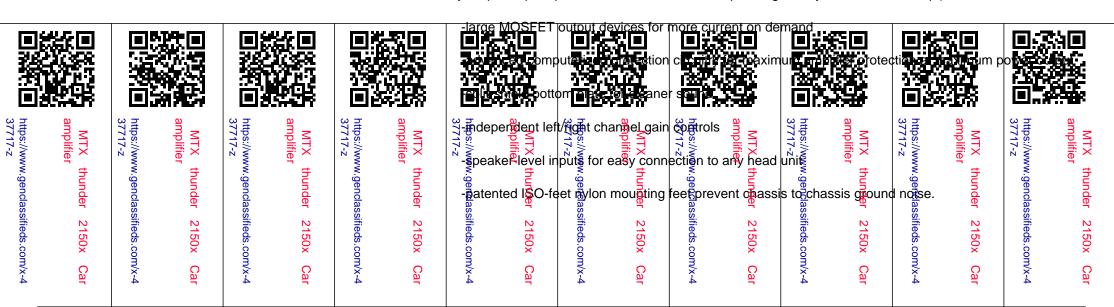

Location **Connecticut** https://www.genclassifieds.com/x-437717-z

## Details:

- -150 watts x 2 into 2 ohms
- -300 watts x 1 in bridged mode
- -stereo, bridged mono, or Tri-Way output for maximum flexibility in system configuration
- -gold-plated input/output jacks provide maximum signal integrity and corrosion resistance
- -individually selectable high- and low-pass crossovers, 18 dB/octave, continuously variable from 50--200 Hz for precision adjustment of the range of frequencies sent to your speakers
- -continuously variable 0-18 dB bass boost at 40 Hz
- -reverse preamp outputs deliver high- or low-pass signal opposite of the selected crossover for the speaker outputs. (For example, if your crossover is set to 100 Hz high-pass for your main speakers, then your preamp outputs will deliver a 100 Hz low-pass signal to your subwoofer amp.)

-11-1/8"W x 2"H x 9-1/16"D
