

Vintage Westinghouse Fan

Location **Delaware**
<https://www.genclassifieds.com/x-437751-z>

I am offering a vintage mid-century Westinghouse 16sd3 fan for sale. It is a 16" oscillating fan. Most of the paint is original, though the blades have been repainted as they were losing most of the paint.

The fan was originally owned by Lukens Steel, a part of Chester County history. (Coatesville)

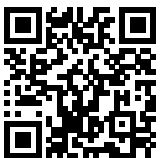

It has been fully reconditioned and serviced with new twisted cloth antique cord and plug, electrical check, and freshly oiled and greased. It is a great antique fan.

This fan will give many years of good use and it really moves some serious air. Ready to go!

Asking \$75 cash only, you must pick up. Sorry, shipping not available.

If your area code is not recognizable as local, please phone me, as I may not respond otherwise due to the amount of scammers that respond.

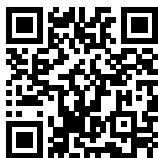

Thanks for!!
