the six police officers charged from murder on down

I'm twice their age

it's hard to believe that three black people would do this to their own kind

because they got a badge and a gun they think they can do no wrong

that's the problem with a lot of people in this era

no value of life, they think they're above the law,

what one will commit suicide first,

and from what I read one of them should never have been on the job,

let's hope the charges will stick that go to trial and they get a conviction and they do not win anything on appeal level,

and hope the convictions will stand

lots of people know that this is just the tip of the iceberg there is lots and lots more in law enforcement that are just like them throughout this country

All 6 will likely be sued for wrongful death

and a violation of his civil rights.

and maybe one day it'll stop

And i wonder who baid their bail money the police union ?

watch the police on a regular basis violate the civil rights of people and arrest them fall see without probable cause ,

and you can bet that the police union will stick by them and stand by them and deny that they did anything wrong

unions in this country should be abolished that should be
