

# Female Lead Vocalist Wanted for Pro DanceParty Band

Location **California**  
<https://www.genclassifieds.com/x-437976-z>

This band features two female lead vocalists, along with a guitarist, a bassist, a keys player and a drummer. Given that the women share the spotlight, with each having lead roles and support harmonies, it is critical that candidates for this position can establish performance chemistry on stage, and together "work the room" putting on a high energy show that captivates an audience and fills the dance floor.

Our repertoire consists of a blend of current pop hits (e.g. Lady Gaga, Beyonce, Bruno Mars, Meghan Traynor, Maroon 5), old school classic R&B / Soul / Funk (e.g. Earth Wind & Fire, Aretha Franklin, Commodores, KC & The Sunshine Band) as well as some Rock Radio favorites. We continually add new material to the repertoire and welcome your input and experience with songs you have performed successfully.

We perform on average between 4 to 7 gigs each month. The gigs all pay decently with some paying very well (e.g. private functions, casinos). At least half of the gigs are outside the SF Bay Area (i.e. as far North as Wine Country, as far East as Sacramento/Gold Country, and as far South as Monterey). Thus, candidates must be willing to travel. Gigs are almost always on Fridays or Saturdays, with the exceptions being a Sunday afternoon Street Faire/Festival during the summer months, or a midweek holiday (e.g. New Years Eve).

Rehearsals occur once or twice per month on the Peninsula. Band members are expected to come prepared for rehearsals by learning the material on their own first. This makes for the most efficient use of our limited time. The band also expects a level of professionalism that is commensurate with prior experience in the entertainment industry (i.e. punctuality, no drug or alcohol abuse, a classy stage wardrobe, and professional conduct).

If this opportunity sounds like something you have the talent for, and more importantly that you can commit the time necessary, we would like to talk to you and hear some of your recorded material or see your videos. Please reply here with some information about yourself, or call / text Steele
