Our upcoming project entails hiring independent producer/directors and/or producer/DP/filmmakers to independently line up interviews for our existing broadcast entertainment / philanthropy project and to supervise and/or film the interviews.

If your strength is primarily producing, and you can use your existing contacts, or are able to make new ones, to arrange interviews with celebrity actors, athletes, singers, musicians, models and other high profile individuals who typically seek out cross promotional and endorsement deals (which we are offering) you might find the project to be perfectly suited for you. Thereafter, once an interview is lined up, you have a choice to also shoot the interview or we can send one of our existing videographers and hosts to conduct the interview(s).

We are able to handle the editing for the independent film teams so that they can focus on securing the interviews and filming them.

The project can pay in one of two ways:

- 1) Producing only: Paying per interview for you as producer to secure/arrange interviews (subject to the type of interviews we are seeking).
- 2) Producing/DP: Paying per interview for you as producer to secure/arrange interviews (subject to the type of interviews we are seeking) plus an additional fee per interview to be the DP as well.

The fee to be paid per acceptable interview can range from \$250 to \$1,000 (plus a royalty component that is without a cap). Each of our producers are currently lining up an average of 2 to 4 interviews per day. For certain exceptional interviews the upfront fees may be higher subject to an independent fee schedule, which we can review with you at our initial meeting.

If you are interested, please let us know and we'll have you sign a confidentiality agreement and come to one of our locations to view the type of work you would be conducting.

Thank you for your interest in our broadcast entertainment/philanthropy project. We look forward to helping you if you are a producer/scribe/industry contacts who can help in video production. We will be sharing with our clients our favourability connections and marketing plan. This is a great opportunity for the right individuals who are in between projects or whose schedules are not fully booked at present. Our top producer will probably bring in \$40,000+ in fees for this month and a royalty that may be being offered for that.
