

Reptile Cages 150

Location **Florida**
<https://www.genclassifieds.com/x-438017-z>

Awesome and light weight black PVC cages for reptiles. All 3 are drilled for proper ventilation and have a screw in light socket for heat AND a strip light fixture for UV or fluorescent lighting. These units also have spaces for heat tape to be fed through for a safe belly heat source. All light fixtures have their own cord (so 2 cords per cage to have individual light control) and the FLUORESCENT BULBS ARE INCLUDED!! Hinged doors are on the back side of the cages and these cages are individual units that may be stacked on each other. Doors and fronts are plexi, one is cracked but no sharp edges at all and still no way for even the tiniest pet to escape. Cages are each 22" L x 14" D x 14" H. Base/pedestal is 22" L x 14" D x 8" H and the total height of units stacked is 51 inches. LOCATED IN LEESBURG \$150 for all including dÃ©cor.
