## THE VISION

To develop a 100 acre parcel with a 32 acre lake thereby creating a men's ministry where through recreational activities such as camping, hunting, fishing, and water sports, men will bond with each other in an iron sharpens iron environment, where lost or bound up people will seek and experience freedom in Jesus Christ and believe in Him by following the Word of God and allowing the Holy Spirit to heal and guide them. The Lord will be glorified and people will be set free. We will help people discover God's purpose for their lives. Root counseling that deals with the issues of the heart also will be available on site. As this vision does come to pass, areas that we may expand into are family and women.
