Offering up for sale/re homing, is one of our adult female APBT's. She is UKC registered and comes from mainland bloodlines. Due to a recent move which we are unable to bring her with, we have to find a good home for this beautiful and sweet girl, as currently she is being cared for by a family member. She is now 5 years old, only bred once (which she had a successful litter), very sweet and playful with people and our dogs. Please contact for re homing fee. We are open to offers and ideas for her. May be open to trades depending on what (looking for gamefowl), so please do not hesitate to ask. We purchased both her parents from Iron Cross Kennels in California. She is a Q-Ball and Esco granddaughter! Her father's littermate brother (Morrar from Alabama Iron Pit Bulls) is said to be the biggest blue blooded pit in the world, and the biggest pit in the USA weighing in at 185lbs and holding a \$10,000 stud service fee!!! So as you can see the genetics this girl possesses is just unreal. So please serious inquiries only!!! Haters stop flagging, I will just keep posting. Thank.
