

Looking for a roomroommate in NOLA

Location **Louisiana**

The Story:

I am moving to NOLA to attend grad school at UNO for Urban Planning and Historic Preservation. I currently live in West Virginia doing hands-on preservation work. I was born and raised in Birmingham, AL and went to undergrad at UAB.

The Breakdown:

I am looking to live somewhat near UNO (Mid-City/Treme and north) for around \$600. I would be moving between July and the first week of August.

I am a twenty-five year old male. I would like to live with someone around my age, no preference on gender.

I do not smoke cigarettes.

I thrive with a canine sidekick, so a dog-friendly environment is ideal although not necessary.

As a roommate, I am mostly reserved to my room or sit quietly reading/with headphones in shared spaces. I would definitely be down for Netflix binge-watching sessions and getting drinks or catching a gig on the weekend. I have an old soul and a young heart. I dig jazz and blues music and old buildings, but like to bike, kayak, camp, etc. as much as possible.

Let me know what you have available or are also looking to find.

For additional information, just.
