

TOYOTA PRIUS CAMRY HYBRID BATTERY REBUILD SEVICE bateria hibrida (TYSON)

Location **Washington**
<https://www.genclassifieds.com/x-438380-z>

NOW at "DR. PRIUS" we are OFFERING a HYBRID BATTERY REBUILD SERVICE WITH 1 (ONE YEAR WARRANTY)...This service also works on CAMRY Hybrid but this price only apply to Prius. Please call or text for inquiry about Camry.

---I DO NOT WORK ON HONDA-HYBRID BATTERY...DO NOT CALL ME TO ASK IF I KNOW SOMEONE WHO FIX IT, BECAUSE I DON'T. Thank you---

My customers and close friends know me by "DR. PRIUS" Because they say I can cure almost anything on those amazing cars.

My reputation is behind each battery that I had fixed, therefore feel confident that I will give you the best of my experience to your needs.

My experience has been build locally in McLean Virginia(metro DC area) by fixing HV batteries since 2013 (over 80 batteries by now). I hope to exceed your expectation on my service and if not, at least give me the opportunity to fix it.

The foundation of my service is based on being honest and doing your best.

How it works: 123456789

- 1- You text me at 202-224-56789 or call me at 202-224-56789
- 2- I will come to your place to diagnose the problem (same as the Toyota dealer)
- 3- I will give you a quote for the service (same as the Toyota dealer)
- 4- You pay for the diagnosis (\$50 if you are located in 10 miles ratio of zip code 22102 and \$25 extra for each extra 30 miles thereafter up to 100 miles) or FREE DIAGNOSIS if you decide to the job with me.
- 5- If your problem is the Hybrid battery, we can work on a affordable solution for your needs.
- 6- Up to 6 bad modules included in the service (average battery have 1 or 2 bad modules).
- 7- I'll remove the battery at your place or you can bring the car to my place in Tyson Corner Virginia.
- 8- I'll take the battery with me to change the battery bad modules and perform a rebalance of all the good modules.

modules with a computerized charger. This process will take at least 4-5 days. Rush service 2 days is available for extra fee, also a battery loan is available for small fee (to 2 gen Prius owners only), so you can use the car during the rebuild time.

9-I will come back to install and test your battery and certify that your car will be good to go.

10-Enjoy your car with 1 (ONE) YEAR UNLIMITED MILES WARRANTY on the modules provided by me.

1-NOTE: If by any chance your battery fail after one year and the warranty expire I will always do a new job for 50% OFF for any returning service.

2-SE HABLA ESPANOL... SI NECESITA QUE LE REPARAMOS SU BATERIA HIBRIDA, LLAMAME PARA MAYOR DETALLES. MUCHAS GRACIAS.-- 804-291-72 TRES TRES

I go to your place remove the battery and take it with me to change bad modules, re-balance and rebuild your damaged hybrid battery. Therefore you do not need to tow your car or visit different shop. I'll fix the battery for the price of \$575. Included with this price I'll do replace any of the bad modules (up to 6 modules for same price then \$40 each additional). On average there is one or two faulty module only and this faulty module is enough to trigger the Red Triangle and give you a traction battery DTC code.

Also I do offer MAINTENANCE SERVICE to any Prius, water pump change, replacement of brake pads and rotors, brake flushing, transmission fluid change, any electrical repair, installation, radiator coolant air bleeding, gas tank replacement, ...just almost anything (sorry I do not change transmission or engine).

ALSO I HAVE FOR SALE A HYBRID BATTERY FOR \$1199 INSTALLED.

This is not a rebuild battery, this is a used one that came from a 2008 prius with 84K miles.. so it is in excellent condition. If you buy the battery I will give you free diagnosis of your prius as long as you own the car (save \$200 over the dealer) with the purchase of this battery.

I DO OFFER PRIUS DIAGNOSTIC WITH TOYOTA SCAN SYSTEM for \$50 to \$75.

No need to tow your car I'll go to your place and check for the condition and health of your car. Service available only in Metro DC area... <50 miles radio from zip code 22102.

I do the diagnosis and find you the problem...then I get you the parts and install the part if you want too for small extra fee... again do not hesitate on contacting me, I am always willing to work with you over the distance and travel to your place.

SE HABLA ESPANOL, SE VENDEN PIEZAS PARA PRIUS, si esta interesado llameme o envieme un texto al 80429172tres tres

Tambien le diagnosticamos cualquier problema con su prius con Toyota Scan ToOL.
