

Need Auto Mechanic (5193., USD)

Location **Florida**
<https://www.genclassifieds.com/x-438472-z>

We are looking for an auto mechanic to work at our car lot starting 5-19 for approximately three weeks, however it could turn into a longer term gig. I'd like to pay by the full day worked, 9am to 5:30pm. Must be an independent worker. Must have own hand tools. We have 2 outdoor bays with compressed air, jacks, stands, engine / tranny lifts, work benches, A/C tools/vacs, and alot more. We have a mechanics building for tool storage etc. I have a current mechanic that's been with us for over 2 years and is on vacation for a couple weeks but things are picking up so I could have work for you after he returns.

Most of the work we do is R+R of parts, lots of switches, window regulators, A/C is a MUST as we do a lot of leak repair, compressors, and diagnostic. We also do a lot of suspension work, brakes here and there. Driveability and Repair of check engine ODB codes. Engine swaps are about 1 a month. No tranny work. NOT LOOKING FOR A PART SWAPPER. I need someone that knows how to diagnose then fix.

You must have a VALID Florida drivers license. We do check backgrounds, however we do make exceptions and understand everyone has a past so feel free to apply but please explain if you have any criminal history current or past.

Please email me with your Name, Phone number, your daily pay rate, and your skills / previous experience. I will call or email respond within 24 hours. .
