one heck of a deal for dirt track racing, enclosed trailer and tools galore, winch, race ready bad ---- pierce mod that has won at skyline , Florence , west Virginia and other tracks, chris stotts drove it , some one should be all over this mod, go to the track and get busy racing,, metal break, air compressor, tires, wheels, hovis engine, new one shifter birt, winters quick change, everything you could need is here and ready, I wont lie, it has a small bend or two from some hard earned feature races , but I made 13 features in it in 2013 just like it is, freshened the mtr and put it in the trailer till now,i do not have to sell just is in my way right now and I don't race it so get it now and make a deal, may trade but not likely, but what do you have? 15000.
