Looking to sell our 1986 Wellcraft. We have had it for about 2 seasons now, and it's ready to go, taxes paid and ready to hit the water!

## Details:

We bought it to get into the boating hobby and now we are hooked and ready to upgrade to a newer and possibly larger boat. The interior is original but is in very good shape for the age. The boat starts and runs really well and will come with a two person OBRIEN SUPER SCREAMER TUBE (too fast for my kids). I did an engine swap after 2 boating trips when we bought it (previous owner had previously run it on no/limited oil and it threw a rod. NEW BELLOWS! Quite a job, and it is expensive to get it done, so be glad they are new. It has a powerful 170 hp 3.7l engine. An alternator has been added a few years ago. Boat has a GUEST battery switch to allow for a backup battery on the boat. Bimini top was new last year (kept in garage over the winter). It comes with an EZ Loading Shore Lander trailer. Super easy to get on the trailer. This is a great first boat and has/will continue to be a great boat for us if we don't sell it. Boat was winterized and is now ready for the boating season. If you have any questions about the boat or its operation, feel free to call, text, or e-mail me.
