Barber Boom Stealth TSR 16/20 The Barber Boom is the Most Intuitive and easy to learn of any Camera Boom/Crane/Jib. This model can be shot ready within about 10 minutes of arriving on set, with just a single person assembling it. Designed with flexibility in mind, the Barber Booms are designed as a telescopic system, allowing the operator to adjust it to within a 1/2 an inch of the desired length, up to a maximum length of the Boom. Constructed of Black Zinc Plated Steel.

The Adjustable Heavy Duty Tripod & Dolly features three individually adjustable legs with adjustments at 1" intervals & the leveling plane of the head is infinitely adjustable within its range.

The Tripod Dolly includes:

1. Heavy Duty Tripod with Leveler designed to handle all versions of the Barber Boom. It allows for individual adjustment of the three legs every inch and infinite adjustment within the range of the leveling head.
2. Heavy Duty dolly capable of handling all versions of Barber Booms. Dolly is designed to easily fold closed for easy transport.
3. Rolling Case for above.

The Barber Tech RPT HEAD EFP is a motorized, remote pan and tilt head. This device allows the operator full remote control over the pan & tilt functions of the camera. Designed to be used in conjunction with a Barber Boom, this remote pan and tilt head's Controls are very user friendly and are very intuitive utilizing a unique pan/tilt handle/joystick hybrid that operates similarly to the pan/tilt handle

on a tripod

This system costs
over \$30,000.00 and
it's still
in new condition and ready to shoot
