Jay Jay is a handsome brown and white tabby DSH male cat who was originally adopted from a shelter in Japan. The owners brought him to the states but when they needed to move again they didn't have the time or money to continue caring for him, so he ended up at a local shelter.

Ever met a cat who likes showers?  
 Jay Jay does!  
 He likes to jump in the shower & join you!

Jay Jay lived with another cat so we would expect with a good introduction he would get along in a multicat household. His previous home also included a 4 year old child who he was reported to get along great with. He is still young and playful and would love a home with a human that likes cat games too.

Is Jay Jay the cat for you?
