Hello!

I am introducing an opportunity to acquire a piece of my photo art. Through this test, I will see how this does before expanding into a gallery. As a Fine Art student, I have been pushed beyond many boundaries into a various series of work from very tame to quite eclectic.

So here's the deal:

Send me self addressed stamped (#10) envelope and enclose \$1.00 yep that's it! 1 buck! I will send you 1 hand signed 4x6 print from one of my collections. It's that simple. I will never send the same person the same photo either. So if you send more than one, you will never get a duplicate photo. This will be a total surprise as to which image you receive. If you have a particular genre of image you like, write the one word description on the return envelope and if I have something like that in my collection, I will try to pull from it. Or be completely surprised at the image you receive. Could be from a cute n cuddly shoot or it could be from a horror shoot or anything in between. I really have pushed the boundaries these past couple years. If you love what your print and want an enlargement, canvas or special print, I can get you rates for those as well.

But this is just a buck... Depending on the response of this test, will determine if I do an offer like this again. :)

Have an amazing day!!
