This Vari Kennel crate was purchased new about a year and a half ago for \$80. It was used for six months by a redbone coonhound, then sat in storage for about a year. It measures 36"L x 24"W x 26" H. It has 10 out of 11 of its screws, but is still functional without the 11th. While it shows some wear and tear from having been sitting in storage and then through a move, it's still in very good!
