LIVING SKILLS ARTISAN EXCHANGE at HONAUNAU ECORETREAT FARM

A Short Term Focused Residential Exchange - 1 week to 1 month stays

For Artisans, Craftsmen, Landscape and Graphic Designers, Photographers and other Creative Souls

Overall, our intention is for the farm to be a place where individuals can join us to collaborate on living in a creative, ecologically, socially, and spiritually conscious way. The goal of our living skills artisan exchange program is to offer skilled artisans and craftsman an opportunity to share their craft through a focused project that will help beautify our land and inspire creativity in a variety of forms. In exchange artists will have an opportunity to immerse in our thriving retreat center and enjoy some of the abundance the land, the community, and the island of Hawaii have to offer.

The exchange provides you with a quaint place to stay and a share of food directly from our farm. We have the original 12x12 coffee shack on the property to offer. The coffee shack/cabin is a private furnished bedroom space which shares the community kitchen, living room and bathroom near by. There is wifi in the communal space as well as laundry facilities. There are photos on our website of the spaces.

If you are interested in applying for an artisan exchange please go to our website and fill out the artisan exchange application at the bottom of this page.
