Gliding bassinet for sale. Our son only slept in it a couple of times before we found out he has to sleep on his stomach for health reasons, so he couldn't use it. Bassinet is on wheels and can be moved from room to room. Has two animals hanging from it to entertain baby, soothing vibration that you can set the speed of, several music options with volume control and a light for when it's dark to see baby. Also has a large, deep, two-pocket storage bin underneath. Comes with the mattress and sheet. This is in like-new.
