

# Randall Diavlo RD1H amp Matching Cab (325., USD)

Location **Missouri**  
<https://www.genclassifieds.com/x-439050-z>

I am selling a Randall Diavlo RD1H amp head and matching RD110-D speaker cabinet. It has been very lightly used in my smoke free home and has never been gigged. I am the original owner and only play guitar as a hobby, so this amp still looks and functions as if it were brand new. The speaker cable will also be included.

The Randall RD1H amp head is a single channel all tube 1 watt (12AX7/12AU7) head with Gain, Tone, Master Volume, 3 way ToneStackShift for midrange contour with Class A Discrete instrument level FX loop and Speaker emulated XLR direct output with with Dummy load for Silent operation and ground lift.

The Randall RD110-D is a 1 x10 angled baffle front loaded closed straight speaker cabinet with heavy duty steel grill.

If you are seeing this ad the item is still available. I am firm on my price and not interested in trades. Thanks for.
